# ROUND UP OF "REDS" PROVES CONSPIRACY

Police of New York Ask Aid of Country in Unearthing Widespread Plot.

Promptness of Officers of Law Prevented Massacre in Union Square—Eight Bombs in Crowd Ready for Use on Signal, but Anarchists Had no Chance to Act. Only Victim Believed Innocent.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, March 22.—[Exclusive Dispatch.] Acting on information obtained as the result of clues contained in letters found in the room of Seely Cohen, or Silverstein, who threw the bomb that mangled himself and killed Ignatz Hildebrand in Union Square on Saturday, policemen attached to the Brooklyn Detective Bureau tonight began a search for eight men who are believed to have taken bombs to the Union Square meeting, and were only deterred from using them by the alertness of the police following the premature explosion of the missile, carried by Silverstein.

According to the secret information obtained by the police, these eight men had conspired with Silverstein to annihilate the entire police detail at the meeting, and would have succeeded had the meeting been allowed to go on. Evidence that the plot had been carefully laid by the members of an anarchist organization to which all of the men belonged, is said to be in the hands of the authorities.

It is believed every one of the men was actually either at Union Square or near by on Saturday afternoon, and that each of them carried a bomb similar to that which Silverstein set off. All of the energies of the police department today were devoted to the effort to unearth the conspiracy.

In the pursuit of persons who might have been implicated with Silverstein, Inspector McCafferty, in charge of the detective bureau, sent every available man of his command out to interview and, if necessary, bring to police headquarters every acknowledged anarchist in the city.

Men were sent to Patterson, where an anarchist sentiment was frequently found, and communications were sent to the police of Chicago, Denver, San Francisco and other cities, asking that efforts be made to learn whether Silverstein was known to anarchists in those places.

## REDS IN OUR JAILS MAY BE DEPORTED.

Washington Sends Official Here to Investigate Records and Opinions of Foreign-Born Prisoners Part of National Movement Against Anarchy

EVERY foreign-born prisoner in jail in Los Angeles, with a bad record, is in danger of being deported.

A representative of the Bureau of Immigration arrived in Los Angeles a few days ago and is interviewing every foreigner locked up in this city. Every effort is being made to find out why, and under what circumstances they became criminals, and, most of all, who they were in Europe.

In addition to those actually locked up, the records of the socialists who seem to have a hankering to get into jail will be rigidly looked into.

It is understood by officials here that this is part of a vast national movement. The government of the United States means to make a wholesale sweep of the Reds. Horrified by the events of the past week, the local investigators are to redouble their strictness.

The chief investigator in Los Angeles is H. Glendenning. He arrived here one day last week, presented credentials from the Department of Commerce and Labor, and asked for a list of every foreign-born prisoner in either the City or County Jail. He also called upon the directors of the Whittier State School and the Patton Industrial Asylum.

Records of the courts also will be examined for names that keep appearing in police circles.

These lists having been furnished him, Mr. Glendenning at once called upon the Sheriff and the Chief of Police and asked permission to interview the foreigners in jail.

Permission was, of course, granted. Part of the time alone, and sometimes with the assistance of deputies from the Immigration Bureau, Glendenning pursued his labors.

Every prisoner had to tell why he came to the United States; where he came from; who his people were in the old country; their business, political views and opinions. In short, about every man locked up in Los Angeles, who has a taint of Red in his brain, the authorities at Washington intend to know.

The understanding is that the worst cases will be deported and that the others will be watched.

The government is known to have changed its ideas radically within a short time in regard to the Reds. The plan formerly was to let them "ravage" but from now on, every effort will be

made to prevent incendiary speeches and it is the further intention to keep anarchists from entering the country, as far as possible. Those already here will be watched closely.

OUNCE OF PREVENTION. It has come to the point where it is absolutely imperative to adopt some system of espionage for such murderous swine.

It is asserted that the cause of Glendenning's coming here was the arrest of the socialists who made speeches in the streets in defiance of the law. The Immigration Bureau has ordered a thorough investigation of that incident.

In addition to the investigations in this city, others are being made at the several ports. Every vessel landing at San Diego from Mexico is raked with a fine-toothed comb. Heavy punishments have been inflicted on officers of ships violating the immigration laws in even the smallest particular.

The purer of a small passenger boat was recently fined \$100 for not having certain data about the antecedents of a sick girl who came on board at Ensenada.

In a certain sense, the Pacific Coast has been a hot-bed for Reds. After the Colorado mining troubles, all the mentally diseased scum of the earth flooded into Goldfield, and other Nevada mining camps where the rankest kind of anarchy was preached.

Another trouble center has been Fillmore street in San Francisco. The new Fillmore street is much like the Bowery in New York. Every night for a year or more, anarchist meetings have been held on nearly every corner and the most villainous doctrines preached.

One of the worst agitators there has been Carl Brown, late of Los Angeles. He was one of the Coxey army which started from this city.

After the army was disbanded the ruffians who composed it scattered all over the country, but during the last year a large number of the leaders have drifted back here, and they are now trying to stir up trouble again. Owing to the activity of the immigration department, they may "bump into something."

There is very little that can be done to the American-born agitators; but the foreigners can be packed back to Europe.

Fearing this, there have been many petitions of late for naturalization papers, but here again the immigration department has made arrangements to weed out the Reds. Every application for citizenship is carefully investigated.

either fuel was found about equal; with cheaper oil here it should be less.

English Bessemer pig iron will be imported via San Pedro. The price is expected to be \$25 a ton, against \$18 on the Atlantic Coast. Eastern iron is higher on account of freight—\$3 a ton. The difference in cost here offsets the saving in fuel.

The product will be chiefly in the form of castings, parts of machinery for mines, etc., couplings and jacks. Mr. Kerr has among other things a patent railroad car coupling and a jack for raising and repairing motor cars both of malleable steel. The advantages claimed for which are simplicity, strength and lightness, as well as extreme cheapness, its cost being about 50 to 75 cents, against \$125 or more for others. It is expected to replace brass in many lines. It will cost 5 cents a pound, against 25 for brass.

Mr. Kerr says the company already has received an advance order for \$127,000 worth of castings. Superior strength and absence of brittleness are the great advantages. Malleable iron has tensile strength of 25,000 to 35,000 pounds the square inch, steel 35,000 to 45,000.

Riverside was chosen as the location, say Kerr and Harding, instead of Los Angeles, both on account of cheaper land and its greater proximity to the mines which are expected to be heavy customers. They state that their engineers are now at work. The site, fully purchased, it is stated, is on the Salt Lake Railroad, near the Santa Ana River bridge. A contract has been let for the buildings.

BETTER CLIMBING. "Old Trail" to Wilson's Peak to Be Improved Greatly by Gang That Starts Work Today.

Work will start this morning on the improvement of the "old trail" from Sierra Madre to Wilson's Peak—a distinct thrill for mountain climbers and nature lovers. Supervisor Manning is responsible for it. He persuaded his associates on the board to grant the needed appropriation and a crew of men will undertake the task today.

The trails to be widened in places, and some of the sharpest curves are to be eliminated, but it is promised that none of the charm is to be lost. It is to be made safer at some of the dangerous points, and will be easier of ascent.

It is not the intention to make the trail wide enough for wagons, but pleasure seekers will find the ascent more to their liking, and pack animals will not have to tug so hard.

The trail starts at the foot of Mt. Wilson, in back of Orchard Camp, it winds its way up the mountain side. In many places the action of the storm waters have made it so rough that timid people find scant pleasure in passing over it, even on sure-footed horses. This one of the difficulties which will be remedied.

"It is our intention to put the trail in good shape," said Supervisor Manning yesterday. "It will probably cost about \$200 to do the work properly, but there is no reason why a good trail should not be made up. The plan is to widen it where necessary, and to make it not only safe, but pleasant to travel over."

The determination to keep the government trail to the observatory closed to the general public, turns most of the travel over the other route.

HANDS ALWAYS IN POCKETS. For Nine Years Has This Patient at County Hospital Been Denied Use of These Members.

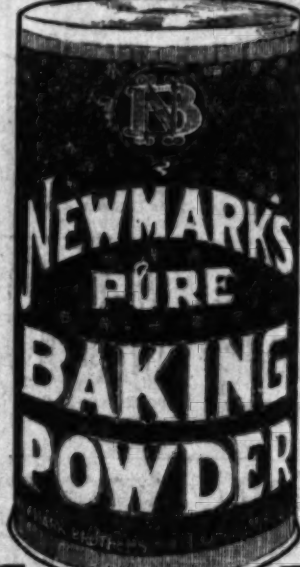

Victim of a peculiar form of paralysis, John McCandless, a patient at the County Hospital, has had his hands in his pockets for nine years. He never expects to remove them.

When McCandless went to the hospital nearly ten years ago he was strong and young, with bright prospects. His affliction has left his right

hand paralyzed, and he has been unable to use it since. He has been in the hospital for nine years, and has been denied the use of his hands.

He has been in the hospital for nine years, and has been denied the use of his hands. He has been in the hospital for nine years, and has been denied the use of his hands.

He has been in the hospital for nine years, and has been denied the use of his hands. He has been in the hospital for nine years, and has been denied the use of his hands.

Its sterling purity and exceptional leavening properties — its own real, intrinsic worth — these are the factors that have made a place for Newmark's Pure Baking Powder in the best of kitchens. Guaranteed to be the best Baking Powder on the market.

Many new designs in 11-carat gold, solid gold bracelet, plain and engraved, \$1 to \$25.

J. ABRAMSON  
214 S. BROADWAY.

is given every possible attention; even hair to be washed and dressed and fed. Though doomed to a life of poverty and helplessness, he is exceedingly cheerful. He has few friends or acquaintances, and no funds. Because of his desire to keep his own counsel he is unjustly accused of being unsocial. He really is a most interesting character.

Visitors at the County Hospital often offer him a tract, pamphlet or fruit, but he always refuses, saying: "I have no need of it. I am physically impossible for him to extend his hands."

## Printing Prices That It Pays To Pay

Doubtless you desire to patronize a printing establishment where you can safely send work regularly, day after day, without the annoyance and expense of running after estimates on each separate job.

You realize that any printing establishment can quote a low price on one order for the purpose of coaxing further business.

But you do not want a low price on an occasional order and high prices on the balance; you wish a uniformly low price, today, tomorrow, every day.

Lowest possible prices consistent with correct printing have built up this great plant.

**ARTIFICIAL GEM MAKING.**

**RUBIES SO PERFECT ONLY EXPERTS CAN TELL THEM.**

**Sapphires Made by the Pound by a French Expert—Are Broken up With a Hammer to Marketable Size and Then Sent to Market. Rare Natural Stones Duplicated.**

**Few of the fair Americans who visit the gorgeous jewelry shops in the Rue de la Paix in Paris know that many of the precious stones that glitter about them so attractively come neither from Asia nor Africa, but from the outskirts of Paris, says a Paris correspondent of the Washington Post.**

**There is at present, in France, a small syndicate comprising five members engaged solely in the manufacture of rubies. These rubies, laboratory-made, are among the most beautiful on the market today.**

**Sapphires of remarkable beauty are also now being made by the pound. So far there is only one manufacturer engaged in the sapphire business, and he is a scientist of such surprising genius that his monopoly on this part of the trade will probably continue for a number of years. Both sapphires and rubies are of a kind that a princess would wear. Their difference from stones made by nature is such that an expert gem merchant or chemist only could discover it.**

**The four attributes which characterize a precious stone are its density, its refraction, its crystallization and its color. The artificial stones are as hard as those made by nature. Their color can be graded—as for the rubies, from light pink to blood red; and for the sapphires, from pale blue to almost black. The crystallization is not exactly the same, nor is the index of refraction always the same. But these are points by which the public does not judge the value of a stone. What the public demands of a ruby or a sapphire is that it retain its surface for an indefinite period—that is to say, that it be hard enough to keep its polish and that it shall have a pleasing color. In these two respects the artificial stones are perfect. Both rubies and sapphires are manufactured from pure alum and chromic acid. The method of manufacture, however, is quite different.**

**VISIT TO THE FACTORY.**

**I enjoyed today the unusual privilege of visiting the ruby manufactory of M. Blavier at Nanou, at Courbevoie, one of the best equipped in France. During this visit a score of rubies were manufactured, any one of which would have been worthy of a place in the showcases of the Rue de la Paix.**

**The apparatus is simple. "So simple, so simple," said M. Blavier, whose name is on the patent for this process, "that I have not had the courage yet to employ any workmen. I do all the work myself."**

**In the first place, ordinary Roman alum is heated in an oven with a small amount of chromic acid until the whole mass is reduced to a fine white powder. The powder, which is about two pounds of alum to one pound of chromic acid. An ordinary coke oven is used, but one capable of giving a very high temperature. When the powder has been cooked to the satisfaction of the maker, the oven is allowed to cool. The powder constitutes the rough material for the gems.**

**Generally speaking, the second process consists in the crystallization of this plain white powder by bringing it to incandescent heat in an oxygen flame. The apparatus used by M. Blavier consists of a small receptacle to contain the powder which lets a small amount of its contents escape at very brief intervals. The powder falls into a tube which conducts it to the center of an oxygen flame at the top of a small iron support.**

**REGULATED SHAPES OF RUBY.**

**The falling powder gradually forms on top of this support a small pyramid of which, after a time, the shape is made by a pair of tongs. The powder is then substituted for a new one, and the process is repeated. The finished ruby is then cut and polished.**

No help could be had until the train reached Tucson, where a doctor was in

and when it was found that the number of the mercury tablet. Although several hours had elapsed, antidotes proved effective, and the woman's life was saved.

**TUCSON ECHOES.**

John Zeigler has been arrested in Benson, charged with embezzlement of \$150, the property of the Wells-Vargo Lumber Company. Zeigler has almost a month past been agent of the El Paso and Southwestern Railroad at Fairbanks. He was lately found short in his accounts by the railroad auditor and charged with the crime. The crime with which he is now charged is the appropriation of \$150 turned over to him as express agent by a Chinaman, Earl S. Metzler, lately at Tucson.

Metzler, who is said to be an accomplice in the murder of Albert C. Leonard in Tucson, has been returned to Tucson from the San Antonio and Pacheco. Metzler denies any connection with Hawkins, now in jail charged with the murder.

According to a letter from Consul Hostetter at Hermosillo, Sonora, Yaguila, a Mexican, who is acting as principal superintendent of the Santa Nina Mining Company. The Consul writes: "This is the first American killed in Sonora since the revolution, and he did not intend to bother Americans."

The new license ordinance just passed by the city council, which will raise to the annual revenues of the city, the saloons have been boosted from \$400,000 to \$500,000. The license tax on saloons has been raised from 30 to 500 per cent.

**ABOUT CLOSED BANK.**

**RECKLESS LOANS ALLEGED.**

(SPECIAL CORRESPONDENCE OF THE TIMES.)

CLOSED (Aztec) March 27. Regarded as the first American national bank, which closed its doors Monday, there are some unpleasant rumors. One is that large sums were loaned upon security insufficient. On the total amount of the \$1,215,000 territorial money, but this is secured by government bonds and an additional surety bond. It is reported that the deposits are about 75 per cent. of the amount of the reserve. There is little excitement here over the failure and the other banking institutions are not particularly alarmed.

For several years the village of Benson has maintained two banks, a condition due to the hope that the plant and the railroad would be merged, and the railroad center. The hope has not been realized, so the Bank of Benson and the National Bank of Benson have consolidated, under the name of the former.

**PICTURESQUE STORY.**

From out of the mountains of Chi huahua comes a lurid story to the effect that Japanese have been "chartered" by the United States government, information preparatory to an invasion of the United States by the Mikado's armies by way of Mexico.

It is said that the Japanese, the Southern Pacific and the Nacozari roads have compromised concerning the extension of the Nacozari road to the Colorado River route. The agreement was said to provide for the construction of a Southern Pacific station on Phelps Lake, and the Nacozari road to the village of Nacozari. This rumor is given the more credence from the fact that the Japanese have been reported toward Nacozari from the line of the Cananea railroad.

**WHILE BABY CLUTCHES SKIRT.**

At Douglas, last Monday, Mrs. Hattie Miller was killed by a runaway stagecoach through her heart. The dead was committed in the presence of her husband and while her 3-year-old child was clinging to her. The child was killed and had a suicidal mania. She usually carried a revolver with her and was instantly jealous of her husband. Two days after the accident she committed suicide by means of laudanum.

Theodore Biermann, a Dane who had been in Douglas for some time, was killed by a runaway stagecoach Sunday by drinking chloroform. He left a letter stating that he was ill, in pain and unable to work.

**UNDERGROUND BALLROOM.**

**Elaborate Character of the Subterranean Hall of the Duke of Portland.**

The underground ballroom at Welbeck, where Their Majesties of Spain graced the debut of the Duke and Duchess of Portland, has been described as having none of the gloomy characteristics of a cellar.

By day, as well as by night, it is a magnificent hall, the ceiling being gilded by the old Duke as a picture gallery. It is lighted entirely from above, the flat, wonderfully-decorated roof being supported by a series of octagonal skylights, built up of prisms and recessed from view. The light is thrown down by a series of hanging through rich crimson silk. The eighteen exquisite glass chandeliers which illuminate the room by night are of the most elaborate and artistic of the Duke's particular care; many sets, after being specially made, were ruthlessly rejected before his taste was pleased.

One notable feature in the room is the marble bust of the "Invisible Prince" mounted on a tall, slender column who constructed the apartment by the simple process of excavating a quare-foot of ground, and filling it with water banks with a double wall, grouted with asphalt to exclude damp, spanning it with iron beams weighing down the walls, and setting out arches to form the roof.

It is quite flat and level with the garden, and is reached by a door over a magnificent turfed lawn. Little dark arches below this sylvan spot and the splendid chamber, 160 feet long and 100 feet wide, is a most magnificent as described by competent judges as the most noble and amazing private room in Europe.

**NEW CAR FENDER.**

Liverpool Device Adopted by a Chicago Street Railroad—Description of the New Car Fender.

The Chicago City Railway Company is decided to equip its cars with a new device that has proved satisfactory on the electric cars of Liverpool. Experts declare that the new device on a street car will be an improvement for a number of years to fall under the wheels, even if knocked down by a car.

The new fender is described by Engineer George Weston as resembling a large, heavy, curved metal plate suspended from the car at an angle of 45 degrees from the rail and hangs about 18 inches from the ground. The device was taken from the fenders in use at Liverpool, England, and they now are being manufactured in the shops of the Chicago City Railway Company. It has an advantage over any fender before ever seen," said Mr. Weston, "in that it will not be damaged by a car running over the wheels. Of course a person being knocked down by a street car will get hurt, but we can prevent this by having a ground line which will prevent loss of life. The fender will be put on some of the cars."

Mr. Weston's description of the new device was the best he could give. He said that it was a most important saving of life in the

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## PASTOR THINKS IT BEST TO GO.

TENDERS HIS RESIGNATION IN PASADENA CHURCH.

Impelled by ill health, Rev. Dr. Malcolm J. McLeod, pastor of the First Presbyterian Church of Pasadena, has tendered his resignation to the board of trustees of the church.

Office of The Times, No. 25 S. Raymond Ave. PASADENA, March 29.—Following an unusually forceful sermon yesterday morning, Rev. Dr. Malcolm J. McLeod, pastor of the First Presbyterian Church, in this city, read at a meeting of the session, his resignation, which he asked to take effect the last Sunday in June. He will then take the pulpit in the First Presbyterian Church of Evanston, Ill., to which he was recently called.

For some time Dr. McLeod has been in ill health, and the burden of building the new \$300,000 edifice is said to have been too great a load for him to carry. It is also intimated that the debt of \$45,000, which now hangs over the church has caused him no little anxiety. A short time before Christmas when he was troubled with influenza he took a short leave of absence, and at the new year returned to Pasadena much refreshed. Since he came back, however, his health has not been of the best, and this is his chief reason for resigning.

Dr. McLeod came to Pasadena about eight years ago to find the church in a struggling condition. He at once took hold, and with careful and energetic work, as well as his strong personality, built up a membership of nearly 100.

Practically from obscurity he has risen to be one of the foremost pulpit speakers in Southern California. His fame has spread abroad, and some of his greatest sermons have been collected and published in book form, the volumes being sent in many homes over the United States.

About three weeks ago, emissaries were sent to Pasadena from the First Presbyterian Church in Evanston, Ill., and a call was extended to Dr. McLeod by these men. He was much surprised to receive the invitation, and at first under consideration for three weeks, the announcement yesterday morning being the result.

He is taking up the work in the eastern church, Dr. McLeod goes to a fine field of endeavor at an increased salary. He believes that his health will improve in the cold climate of the East, and that the change will be beneficial at the time.

When the fact became known that he had tendered his resignation deep regret, as well as surprise was expressed, for it was not believed that he would leave the beautiful church that has just been completed.

Trustees of the church will take up the resignation at a meeting of the session tonight and it will be considered fully at that time. Later it will be tendered to the Southern California presbytery.

One of the trustees of the church last night stated that it was with deep regret the resignation was received, but that in view of the fact Dr. McLeod's illness seemed to require a change of climate, it was reluctantly accepted.

FOR PATROL WAGON. With the making up of the budget for the police department apportionment of city funds this spring, Chief of Police Favour will ask for a patrol wagon. The vehicle was asked for at the time last year's budget was made up, but then Chief Favour had been in office but a short while and there was a shortage in the city treasury.

It was generally acknowledged, even by the City Council and members of the Board of City Commissioners, that the patrol wagon was much needed. The installation of thirty-two call telephone boxes is another addition which has been made, but it is felt that the vehicle for transporting the injured, sick or drunks through the streets is now needed. At present an ambulance is called in injury cases and it takes several minutes for the team to be hitched up and then the city is out for the service. Drunks are brought in on the street cars and not always to the pleasure of the passengers. Criminals hide in the cars with the best citizens. Children often are forced to see sights of this kind that are objectionable.

As to the eight-hour day for policemen, Chief Favour says that the men in Los Angeles get the same wages as the men in Pasadena, but they work only eight hours. Here the men work ten hours a day seven days in the week and are also called upon to work overtime.

A recent ordinance adopted by the City Council contains a section reading thus: "Except as herein otherwise provided eight (8) hours actual work shall constitute one day's work of all city employees." This section might be construed to mean the police department, were it not answerable to the City Commissioners. It is probable that this will give a water saving wedge for reduction of hours for the force and for the employment of more men so that three shifts of eight hours each may be maintained.

BISHOP CONFIRMS CLASS. Bishop J. H. Johnson confirmed a large class of candidates at the All Saints Episcopal Church yesterday morning. The service was one of the prettiest of the year and was made more so, by the large number of young girls who were confirmed. Twenty-three were in the class.

NEW HEAD CHOSEN. With the opening of Throop Polytechnic Institute tomorrow, after a week vacation, President Arthur H. Chamberlain announced last night that Prof. C. S. Milliken, B.S., will take charge of the biology department. Prof. Joseph Grinnell, formerly head of this branch, has resigned to take up research work for the University of California and carries with him the best wishes of many friendly in this city. Prof. Milliken is chosen head of the department over several well-recommended candidates. He is a graduate of Massachusetts Institute of Technology and has been an instructor in high schools and colleges in Flint, Mich., Lawrence, Mass., and Wisconsin College in Wisconsin, from which place he comes to Pasadena.

EQUALS TRIAL RECORD. Running under the emblem of the "Flying Doughnut" of the Olympic Club of San Francisco, H. Bowden, equaled the record of 1m. 48s. for the ascent of Mount Wilson yesterday. On the trip down he broke the record made by Paul Reinwald of fifty minutes, making the descent in forty-seven minutes. Reinwald held the record for the climb. Bowden ran in light track shoes and running suit. He complained of being cold in the snow near the top.

## PERIL IN SURF SEEN BY MANY.

PASSENGER-LADEN LAUNCH IS SAVED FROM BREAKERS.

Thrilling incident at Long Beach Follows the Going Wrong of Engines—Another Power Boat to the Rescue—First Election Under the New Charter to Be Held This Week.

LONG BEACH, March 29.—Thousands of people lined the pier this afternoon and anxiously witnessed the peril of twenty-five passengers of the launch Seabright returning from a visit to the cruiser South Dakota. Capt. Blue, who was in charge, was running the engine, which began working badly and for some reason the boat became unmanageable and ran wild just after rounding the pier. The engine stopped, and, carried northward by a heavy swell, and choppy sea, the little launch was soon in the breakers drifting rapidly toward shore. Capt. Blue and his crew got out an anchor, but the boat continued to drag. The captain of the Music saw the danger and going to the rescue, got a line to the Seabright, and carried the boat to the wharf where the passengers, some of them seafarers, were landed safely.

HARMONY HERE. On Friday of this week will take place the first election under the provision of the new city charter. The election is for the choosing of five members of a board of education who will on the first of May, succeed the present school trustees, and the district will pass from control of the city to that of the city. Because of outstanding bonds the district will remain the same and the county will receive the school tax. The board of education will be composed of five members, and the charter provides that the term of two of the elective members shall be two years and of the other three, one year.

Manager D. M. Whinnard of Hotel Maryland has extended an invitation to members of the City Council, commissioners and other officials of the city to go as his guests to Long Beach on Wednesday, to attend the opening of Hotel Maryland. The hotel is a new nine-story building, the Pasadena nine defeat the Meeks baseball team at Hotel Raymond grounds. The score was 9 to 5. Miller and Leahy were the battery for the home team.

Members of the Pasadena and Los Angeles Motorcycle clubs joined together yesterday and nearly fifty of the benzine motors bicycled and tandem were seen going over the Lincoln avenue road to the Devil's Gate, where a picnic was held.

Collector of Chinese and Japanese fine art, Chinese hand-made and jade jewelry. These goods arrived by express and will be sold at once. Come and see our prices. Store opens today. F. Smith, 181 East Colorado street, Pasadena.

Dr. W. C. Smith has moved to Chamber of Commerce building. Nava's blankets, 25 per cent. discount. Wiggins, 41 N. Euclid. Artist's materials at Wadsworth's. Phelps for wall paper and paints. Naval receptions frequent at Coronado.

FUSS OVER PARSONAGE. Contest Is Likely Over Removal of Methodist Building at Prospect Park.

HOLLYWOOD, March 29.—Troubles in the Methodist Church circles at Prospect Park have again broken out, this time over the sale of the parsonage. It is the plan of a large number of those remaining as members of this church to remove the building from its present location to Prospect avenue, on the car line. As a step toward the removal was the sale last week to a Mr. Sperry of the church parsonage. While the former church of Hollywood members of other churches, got word of this sale which had been about considered for some time, they produced a deed of the property made each one personally and sprung it at the quarterly conference Wednesday night. Accordingly parsonage cannot be sold without the signature of each of these gentlemen, George Swan, W. O. Jackson, S. E. Sullivan, E. C. Quinn, and J. W. Young, Jr., and J. E. Knight Ward are rivals, and for secretary there are Charles Murphy and E. H. Van Sitter. There are about 240 members of the order here and an attendance of 200 is expected Monday night.

W. A. Kennedy, for several years cashier of the First National bank, was elected to the position of secretary of the Y.M.C.A. of this city. His official title is not as yet designated.

A big Sunday crowd visited the beach today and enjoyed all the features of the pier, sand and pike. The sea was choppy, however, and ocean going trips were not much in favor.

J. R. Gallimore has been appointed a regular patrolman. He was for eight years a member of the St. Louis police and has lived in Long Beach a year. The Los Angeles Police Department has raised \$20 which has been turned over to the Chamber of Commerce for the expense fund raised to entertain the meet.

In the absence of the family last evening the home of Mrs. Myra Kingman Miller was entered and a gold watch was stolen and also a dog collar containing fourteen American pennies. The police think some one acquainted with the premises entered the house with a pass key.

Sunday crowd visited the beach today and enjoyed all the features of the pier, sand and pike. The sea was choppy, however, and ocean going trips were not much in favor.

Ask now for Coronado space. WHITTIER. WHITTIER, March 29.—While the city is buzzing with a live full of anger over the approaching election of City Trustees and other officers, the school election which occurs April 2, has brought out very little interest. Two trustees for the city schools and one for the Union High School district are to be elected by the voters of the city. R. B. Way, L. C. Montgomery and A. C. Johnson, for the first time in the city's history a woman, has announced her candidacy for a position on the city school board. This is Mrs. A. H. Mills, a former school teacher and a prominent citizen.

Fire drills are being held regularly at the Pennsylvania-street, Bailey-street and Union High schools. At the last-named a drill was held on Friday at which the building was entirely cleared in one minute.

Thirteen ladies, members of the Fire drills are being held regularly at the Pennsylvania-street, Bailey-street and Union High schools. At the last-named a drill was held on Friday at which the building was entirely cleared in one minute.

## BISHOP'S CUP CHOCOLATE

Have a Cup today—and you'll want it every day.

Figuring the cost of milk, sugar and chocolate, Bishop's Cup Chocolate is the cheapest you can use.

Some room now at Coronado. TRIP PLEASES NAVY MEN. Officers of Cruiser South Dakota Are Entertained by Valley Trolley Ride.

SAN PEDRO, March 29.—Capt. Chas. E. Fox, commanding the armored cruiser South Dakota and ten of the officers of the warship were guests this afternoon of H. S. Alexander, vice-president of the Pacific Electric and the San Pedro Chamber of Commerce on a trolley trip to Glendora, Monrovia and Pasadena. The visitors were much pleased with the trip and were given an opportunity to either oranges from the trees at Glendora. A short stop was made at the Hotel Maryland in Pasadena. Returning to San Pedro, dinner was served at 6 o'clock at the South Coast Yacht Club. In addition to Capt. Fox the following officers of the South Dakota made the trip: Capt. Breckenridge, U. S. Marine Corps; Ensign C. C. Moore, Midshipman James Murray, U. S. Navy; Ensign G. C. Dehner and H. Clement; Pay Clerk E. W. Moore, Gunners Aug. Anderson and E. W. Nelson, and Warrant Machinists George H. Beck and E. W. Nelson.

The San Pedro Chamber of Commerce was represented by John T. Gaffney, president; Frank Nichols, vice-president; W. F. Bickel, secretary; J. H. Bautzer, W. C. Miller, Fred Smith, C. J. Adair, E. J. Falk and J. W. Nelson.

Religious services were conducted on board the South Dakota by John Makins of the San Pedro Seamen's Union, this morning assisted by various local church organizations. The South Dakota will weigh anchor tomorrow morning for a cruise and will return to the port early in April.

WILL INSPECT FISHERIES. Deputy Game Warden John C. Wray left here today in the launch Petrol for a two weeks' inspection of fishing conditions and equipment on and around the Channel Islands. Accompanying Warden Wray are Fred, George H. Andrews of the Smithsonian Institute, and Dr. Joseph B. Tanner and John M. Beck.

TOLD ALONG SHORE. At the High School auditorium Friday night of this week will take place the debate between Long Beach and Monrovia High Schools. Both are top notchers in the debating line, and the winner will contest in the finals. The Monrovia debaters are Robert Esberg and Robert Scarborough, while Miss Anna Musser and Fred Watkins will represent Long Beach. The affirmative of the question which is: "Resolved, that the French centralized school system is better than the American decentralized system." The judges selected are Dist. Atty. Frederick, Judge Curtis D. Wilbur and Dean of Police William J. Egan. One hundred "rooters" will come down from Monrovia to encourage their champions.

The annual election of officers of the local lodge of Elks is to be Monday night and the canvass for favorites has taken on a new reality. The candidates are: For Exalted Ruler, Secretary Ed Brown is contesting honors with Assistant Postmaster, Fred M. Young, Jr., and J. E. Knight Ward are rivals, and for secretary there are Charles Murphy and E. H. Van Sitter. There are about 240 members of the order here and an attendance of 200 is expected Monday night.

W. A. Kennedy, for several years cashier of the First National bank, was elected to the position of secretary of the Y.M.C.A. of this city. His official title is not as yet designated.

J. R. Gallimore has been appointed a regular patrolman. He was for eight years a member of the St. Louis police and has lived in Long Beach a year. The Los Angeles Police Department has raised \$20 which has been turned over to the Chamber of Commerce for the expense fund raised to entertain the meet.

In the absence of the family last evening the home of Mrs. Myra Kingman Miller was entered and a gold watch was stolen and also a dog collar containing fourteen American pennies. The police think some one acquainted with the premises entered the house with a pass key.

Sunday crowd visited the beach today and enjoyed all the features of the pier, sand and pike. The sea was choppy, however, and ocean going trips were not much in favor.

## BISHOP'S CUP CHOCOLATE

Have a Cup today—and you'll want it every day.

Figuring the cost of milk, sugar and chocolate, Bishop's Cup Chocolate is the cheapest you can use.

Some room now at Coronado. TRIP PLEASES NAVY MEN. Officers of Cruiser South Dakota Are Entertained by Valley Trolley Ride.

SAN PEDRO, March 29.—Capt. Chas. E. Fox, commanding the armored cruiser South Dakota and ten of the officers of the warship were guests this afternoon of H. S. Alexander, vice-president of the Pacific Electric and the San Pedro Chamber of Commerce on a trolley trip to Glendora, Monrovia and Pasadena. The visitors were much pleased with the trip and were given an opportunity to either oranges from the trees at Glendora. A short stop was made at the Hotel Maryland in Pasadena. Returning to San Pedro, dinner was served at 6 o'clock at the South Coast Yacht Club. In addition to Capt. Fox the following officers of the South Dakota made the trip: Capt. Breckenridge, U. S. Marine Corps; Ensign C. C. Moore, Midshipman James Murray, U. S. Navy; Ensign G. C. Dehner and H. Clement; Pay Clerk E. W. Moore, Gunners Aug. Anderson and E. W. Nelson, and Warrant Machinists George H. Beck and E. W. Nelson.

The San Pedro Chamber of Commerce was represented by John T. Gaffney, president; Frank Nichols, vice-president; W. F. Bickel, secretary; J. H. Bautzer, W. C. Miller, Fred Smith, C. J. Adair, E. J. Falk and J. W. Nelson.

Religious services were conducted on board the South Dakota by John Makins of the San Pedro Seamen's Union, this morning assisted by various local church organizations. The South Dakota will weigh anchor tomorrow morning for a cruise and will return to the port early in April.

WILL INSPECT FISHERIES. Deputy Game Warden John C. Wray left here today in the launch Petrol for a two weeks' inspection of fishing conditions and equipment on and around the Channel Islands. Accompanying Warden Wray are Fred, George H. Andrews of the Smithsonian Institute, and Dr. Joseph B. Tanner and John M. Beck.

TOLD ALONG SHORE. At the High School auditorium Friday night of this week will take place the debate between Long Beach and Monrovia High Schools. Both are top notchers in the debating line, and the winner will contest in the finals. The Monrovia debaters are Robert Esberg and Robert Scarborough, while Miss Anna Musser and Fred Watkins will represent Long Beach. The affirmative of the question which is: "Resolved, that the French centralized school system is better than the American decentralized system." The judges selected are Dist. Atty. Frederick, Judge Curtis D. Wilbur and Dean of Police William J. Egan. One hundred "rooters" will come down from Monrovia to encourage their champions.

The annual election of officers of the local lodge of Elks is to be Monday night and the canvass for favorites has taken on a new reality. The candidates are: For Exalted Ruler, Secretary Ed Brown is contesting honors with Assistant Postmaster, Fred M. Young, Jr., and J. E. Knight Ward are rivals, and for secretary there are Charles Murphy and E. H. Van Sitter. There are about 240 members of the order here and an attendance of 200 is expected Monday night.

W. A. Kennedy, for several years cashier of the First National bank, was elected to the position of secretary of the Y.M.C.A. of this city. His official title is not as yet designated.

A big Sunday crowd visited the beach today and enjoyed all the features of the pier, sand and pike. The sea was choppy, however, and ocean going trips were not much in favor.

## THE CITY IN BRIEF

"Show your colors!"

## NEWS AND BUSINESS.

**Daughters of Veterans.**  
A meeting of the Daughters of Veterans will be held in the office of Dr. C. E. Case, No. 415 1/2 South Spring, at 7:30 o'clock this evening.

**Mrs. Minnan Dead.**  
Mrs. Marshall L. Minnan of Dunbar, N. Y., mother of Mrs. William M. Garland, died at 11 o'clock last night. She was in her sixty-third year.

**Mr. Huntington's Return.**  
H. E. Huntington, who has been in New York for several months, is expected to return to Los Angeles within the next two weeks to resume active charge of his great interests here.

**Officer's Son Dead.**  
Russell Harrison, the 7-year-old son of Patrolman J. M. Harrison, died at the residence of his parents, No. 1628 Redwood street, yesterday morning, of scarlet fever. Private funeral services will be held at the residence this morning.

**Catholic Foresters.**  
Joseph Scott addressed a large audience at Cathedral Hall yesterday with reference to the organization of a local branch of the Catholic Order of Foresters. A similar meeting will be held at 2 o'clock next Sunday afternoon at the same place, and it is believed the movement will be successful.

**Fire in Flats.**  
Fire of unknown origin partially destroyed the flats at No. 715 South Figueroa street yesterday morning. Morris Jacoby, who occupies one side of the building, lost about \$250, the contents of his tailor shop being damaged by fire and water. Miss Annie Harrison, occupying the opposite side, lost about \$200. The building owned by D. C. McGarvin, was damaged to the extent of \$300.

**Patriotic Pupils.**  
Pupils of the public schools of Colton have subscribed \$10 to the fund for the entertainment of the enlisted men of Admiral Evans's fleet during their stay in Los Angeles. A check for that amount has been received by The Times for W. D. Woolwine, chairman of the Finance Committee, and will be delivered to him. The subscription was prompted by the reading by Supervising Principal Green of a patriotic letter from a former pupil, now in Ireland.

**Saves Children at Fire.**  
A heroism lamp exploded about 8 o'clock last night in a cottage occupied by Frank Talalo at No. 224 Legrand street, causing a fire which resulted in a loss of \$400. After carrying his children out of the room, Talalo fought the spreading flames. His hands were slightly burned, before he abandoned the house and turned in an alarm. The house was practically destroyed and Talalo saved only a few of his personal effects.

SACRED TIES.  
BISHOP CONATY ON MARRIAGE.

GIVES HIS CONSTRUCTION OF THE PAPAL DECREE.

One of the Most Vital Problems Affecting Society, the Bulwark of the Home—Fashionable Novels and Sensational Lectures Sowing the Seed That Lead to Destruction.

"Marriage" and the new Catholic law therefore were the subjects of Bishop Conaty's sermon at 10:30 o'clock mass at St. Vibiana's Cathedral, yesterday.

After reading the papal decree, extending the Council of Trent's ruling to the world and announcing his official construction of its provisions, the bishop spoke of marriage as one of the most vital problems affecting society. He asserted that marriage is the bulwark of the home; that it makes, protects, safeguards and ennobles it. Whatever interferes with home life is an injury to society. As marriage is protected in the purposes for which God established it, so it is society blessed, said the prelate.

"Anything that strikes at marriage's sacred character," he said, "strikes at society, and its degradation and destruction must result in the overthrow of order and the home's destruction. Dissolution of marriage by reason of fraud and crime or for the whims and caprices of people, must work frightful havoc to the morals of the community. Our modern society will reach the condition of the Romans of old when, as Leo XIII. quotes, 'women used to reckon years not by the change of seasons but by their husbands'.'"

"False theories of marriage are sapping the foundations of society. The fashionable novel, and even fashionable lectures are sowing the seed which will result in destruction. They give false ideas of liberty, create discussions in the home, breed a spirit of unrest, encourage rebellion against divine and ecclesiastical law, and cast poor human nature into the whirlpool of passion in which it soot itself reduced to degradation and misery. It is necessary that we preach the sanctity of Christian marriage and understand its nature and obligations as well as blessings. We are Christians redeemed in the blood of Jesus Christ and for us marriage is a sacrament, sacred with the power to dispense the blood of Jesus Christ, as are all the other sacraments. We need to remember that Christ came to save mankind and that He and not the world is the teacher of our life. Christ came to save mankind through the intermediary of the Christian family. He united His divinity with our humanity and thus gave us a type of marriage. He united Himself with His church in order to give us an example of the indissolubility of the union which is effected in Christian marriage.

"No matter what men's passions may dictate or society decide, the

## RICH WOMAN'S PATHETIC END.

Children Hear of Her Death Two Days After.

Would Have Been Buried in Potter's Field.

Police Hospital Authorities Are Blamed.

While the body of Mrs. Phoebe Ann Green was being prepared for burial in the potter's field, her son, Albert P. Green, president of the Albert P. Green Paint Company, and her daughter, Mrs. Pearl Chandlee, of No. 1706 Michigan avenue, set through the service at the Central Baptist Church, yesterday morning, expecting to greet their mother at its close. Arrangements had been made for a family dinner party, at which the mother was to be honored guest, but she died at the County Hospital, Saturday night, of injuries received in a street car accident the day before.

Mrs. Green left the home of Mrs. Chandlee Friday afternoon at 4 o'clock, intending to go to her son's residence at No. 811 Grand View, where she had lived for the past two years. As she stepped from the car at Seventh and Alvarado streets, two blocks from her home, she fell to the pavement and sustained a severe brain concussion. She was taken to the Receiving Hospital, where she died. Her name before she became unconscious.

There seems to have been no great effort made by the police, or the hospital officials to find out who the patient was. Two sons and a daughter, and two nephews, all have 'phones, as might have been determined by consulting the directory.

While his mother lay unconscious at the hospital, A. P. Green supposed she was still at Mrs. Chandlee's. She had said, before leaving home, that she might remain with her daughter for a week because of the illness of a little grandson.

Mrs. Chandlee took it for granted that her mother had arrived safely at her son's house, for although Mrs. Green was 64 years old, she was active and often made the long trip between the two residences unattended.

After the service, at the Central Church, yesterday morning, Mr. Green and Mrs. Chandlee met and simultaneously asked the question: "Where's mother?" When neither could answer it, fear gripped their hearts. Mr. Green hastened home and telephoned to relatives, but could not relieve his anxiety, but happening to pick up a copy of the Sunday Times, he read in it the account of the death of his mother.

Though almost stunned by the news, he hastened to the County Hospital, only to learn that the body had been sent to Breese Brothers morgue, where arrangements had already been made for consigning it to a pauper's grave.

Mr. Green said last night: "I blame the police and hospital authorities for not making more of an effort to get into communication with me. My mother was able to tell her name, and they could at least have called up a couple of Greens, and they would easily have found some of us. It seems like it's an inexcusable carelessness on the part of the County Hospital to die."

"I do not know what care she received, but she should have had the best of attention had we known of the accident. She might be alive now if the authorities had done their full duty."

"SOMEBODY WILL PAY." M. V. Pike, a son-in-law, who is here on a visit, declares he will take the matter up with the authorities. He is very indignant, and said: "Each of us has a son-in-law. They could easily have found some of us. My brother-in-law is a well-known person in the community. He would have sent my mother to the County Hospital to die."

Mrs. Green had lived in this city for two years, having come from Portland, Me., where she was born. She leaves seven children, A. P. Green, Mrs. Chandlee, Mrs. J. R. Paradise of Klamath Falls, Or.; J. W. Green and A. W. Green, Mrs. C. H. Goodman and Mrs. Pike, of Portland, Or.

There will be an inquest today.
